MISSION

STL Oil & Gas Services is a flexible independent company specialized in most fields of the Oil&Gas business.

The mission of STL is the development of contracts for engineering, construction, maintenance, operation and logistics in the Oil&Gas field, providing client companies with highly specialized services, in a perspective of continuous development and growth.

STL can effectively integrate various activities of the supply chain, ranging from post-order up to project management services.

STL Oil & Gas Services
was created to meet
the challenges
of a demanding market,
in which flexibility
and on-field expertise
are key factor for
a global success.

VALUES

We believe in
COMMITMENT
and **RELIABILITY**.

We believe
that investing
in **INNOVATION**
is a primary
RESPONSIBILITY
for those who want
to operate in this market
with a **HONEST**
and **TRANSPARENT**
approach.

SERVICES

We are a **FLEXIBLE** and **RELIABLE** partner for Oil&Gas companies, able to offer a wide range of different ancillary services.

From project cargo forwarding and transports to material management, technical assistance with highly skilled personnel, camps managing and much more.

PROJECT CARGO FORWARDING

STL has a strong expertise in Industrial Project cargo, thanks to the experience acquired over the years by its partners, and can cope with even the most complex transport dynamics.

Multi-Axle Hydraulic Modular Trailers Operations
Roll On/Off Operations
Sea Fastening And Grillage Engineering.
Barge Towage Operations
Stl's Project/Contract Execution Policy
Risk Assessments
Route Surveys
Infrastructures Assessments
Transport Support/Saddles Engineering.
Lifting Plans And Lifting Operations Engineering
Permits And Authorizations Expediting And Obtainment
Customs And Logistics

EPCM & PROJECT MANAGEMENT

STL can also provide high level project management services for engineering, procurement, construction, maintenance (EPCM).

Hook-Up, Plant (Pre) Commissioning And Start-Up
Pre-Operations Planning (Feasibility Study)
Maintenance Planning And Scheduling
Production Operations & Maintenance
Structural Steel Works
Skid Mounted Units Fabrication
Modules (Process & Living)
Production O&M Management And Support
Maintenance/Overhaul Of Compressors, Pumps, Generators, Rotating Equipment, Hvac And Chiller System
Psv Calibration And Maintenance
Mechanical, Instrumentation, Electrical Installation & Modification Activities
Construction Supervision & Inspection (Pre)Commissioning & Start Up
Onshore/Offshore Management and P.O.B. Control
Skidding operation to/from Barges for Project/Modules cargo

TECHNICAL O&M SERVICE & MANPOWER

STL is capable to supply quality operations and maintenance services to its clients as part of an integrated service solution. These O&M services provide the experienced manpower and cost effective programs to safely manage the assets of customers which, in turn, allows them to focus on their core business.

MARINE ENGINEERING AND OFFSHORE TECHNICAL SERVICE

Marine engineering and consultancy is one of STL's prerogative, with the purpose to provide integrated services worldwide in the marine, shipping and transport fields, ranging from engineering consulting to turn-key operations

- Feasibility Studies For New Buildings Or Conversions
- Basic Design and Design
- Reviews Structural Analysis
- Hydrostatic and Hydrodynamics
- Analysis Ship System Design
- Piping and HVAC Layout
- Heavy Lifting and Heavy Load Transportation

- Design Construction Management
- Inspections & Trials
- Marine Surveying, Drydock Survey
- Shipbuilding and Shiprepair
- Surveillance Ship's Conditions Survey
- Risk Assessment
- H&M Damage
- Survey Repairing Cost Estimate
- Claim Analysis
- Procurement and Communication

MATERIAL MANAGEMENT & PROJECT LOGISTICS

STL adds services in Material Management and Project Logistics fields supporting the procurement and purchasing activities to integrated access and optimizing the logistic activities within the Project Supply Chain.

Inspection
Expediting
Vendor Assessment
Surveys and Consultancies
HSE Surveys and Consultancies
Material Management
Procurement
Supply Chain Optimization
Camps and Lodging Management
Storage and Warehousing
Hse/Waste Management

CONTROLS AND CERTIFICATION

STL supports customers providing all activities of controls and certifications

Procedure Qualification Reports Database (Codes: Asme Ix, Aws D1.1, Emua, En 15614; Materials: Carbon Steel, Stainless Steel, Nickel, P92, P91, P22, Aluminum, Titanium, Etc.)
Welding Coordination And Management (Project Wps, Welding Book; Welding Register Preparation And Issue)
Positive Material Identification
Materials Identification And Traceability
NDE (VT, PT, MT, UT, RT)
Post Welding Heat Treatment
Test And Controls (Hardness, Hydrostatic, Pneumatic, Vacuum, Sandblasting, Painting, Etc.)
Instrument Calibrations (Temperature, Pressure, Differential Pressure, Etc.)
Electrical Not Destructive Test (Megger Test, Earth Test, Current Injection Test, Etc.)
Final Record Data Book

A photograph of an industrial facility, likely an oil refinery or gas processing plant, during sunset. The scene features a large, white, cylindrical storage tank in the foreground, with a complex network of pipes, ladders, and structural steel above it. Two tall, vertical distillation columns are visible on the left side. The sky is a mix of orange, yellow, and blue, with the sun low on the horizon, creating a strong backlight effect. A thick, curved yellow line is overlaid on the image, starting from the top left and curving towards the right. The text 'LOCAL CONTENT & TRAINING' is written in a bold, yellow, sans-serif font on the right side of the image.

LOCAL CONTENT & TRAINING

**“ The best way to learn
is to teach ”**

Frank Oppenheimer

**STL has capability to transfer
locally proper know-how
gained during many years of
experience.**

Our training program foreseen
education for local people to
create team of experts capable
to support independently STL
operation.

STL wants to be recognized as company capable to strengthen its business thanks to employment of local content; for this reason STL is committed in:

Providing beginners with basic knowledge about petroleum industry

Promoting HSQE education

Training classes and practical test concerning available equipment

Fostering acquisition and assessment programs

OUR EXPERIENCE AT A GLANCE
