About us

G.Y. HOPH STROVE TOOLS MANUFACTURE CO.,LTD (HOPH) has a team of product designers, metallurgical experts and tool specialists who are constantly advancing drilling technology for the entire industry. As a national-level new high-tech enterprise and a standing council member in the association for Drilling Steel and Tool Industry, HOPH serves China and the world with high quality drilling tools. With a profound research and development of anti-fatigue of drill steels and rock drilling tools performance, HOPH has gained gratifying annual sales amount and market share growth year by year. Up to now, customers from over 40 countries have proven HOPH rock drilling tools' reliability and performance. HOPH business line covers all construction, quarrying and mining, blast applications and forepoling, from the softest to the hardest of rock conditions.

Our strength lies in our team of creativity, know-how, continuous R&D and prompt response. The R&D team has experts with more than 30 years experience in rock drilling and blasting field. The financial team has listed company working background and ability to deal with international business. The sales engineers team has English, Russian and Spanish speakers who have experience of working in the drilling and blasting industry and international business over 5-10 years.

BREAKOUT BENCHES

The thread connections of the Drive Chuck and Top Sub may become very tightly tensioned during drilling. It is convenient to break the hammer threads on the rig, but if the threads cannot be loosened or tend to get stuck, a breakout bench is the solution. This handy but powerful breakout bench can easily be placed in a workshop or container and it breaks DTH hammers between 3" and 8". Select right breakout bench depending on voltage and power source.

The standard motor request power source with 3 phase, 380V,50Hz. we can adjust the motor as customers request.

Main Technical Data

Operating Mode	By Hydraulic Jack (Manual)		By Electric Motor
Model	HB-5	HB-8	HBE3-8
Hammer Size	3-5"	6-8"	3.5-8"
Length	920mm	1100mm	1060mm
Width	510mm	620mm	930mm
Height	875mm	875mm	1050mm
Weight	350kg	350kg	800kg

BACK HAMMERS

In case of jamming of any drilling tool in drilling process, the back hammer will help you to solve that.

Backhammer is a tool that can save and recover a drill string stuck in a hole, it can be easily fitted in a suitable tube joint between the drill support and the rotation head to provide an effective combination of backward hammering and vibration to loosen stuck drill strings.

Note:The connection thread can be customized.

Product	Pressure(Bar)	Thread	Total Length(mm)	Diameter(mm)	Weight(Kg)
HBH140	8	API 3 1/2" REG	510	140	31
