

Deck Oven **SOLAR**

Powerful, precise, efficient

- electrically powered
- up to 12 m² baking surface area
- Temperatures up to 300 °C
- powerful single-stove steaming
- Particularly even baking result
- with loader

DEBAG
GLOBAL BAKING TECHNOLOGY

SOLAR deck oven

Powerful radiant heat for perfect baking quality and maximum efficiency.

Technical data

MODEL	SOLAR 4S	SOLAR 4H ²	SOLAR 5H ²
Exterior dimensions* (WxHxD):	1.750 x 2.460 x 2.875 mm	1.750 x 2.460 x 2.875 mm	1.750 x 2.460 x 2.875 mm
Stove inside (H):	4 x 180 mm	1 x 230 mm 3 x 180 mm	2 x 230 mm 3 x 180 mm
Weight (without contents):	3.200 kg	3.200 kg	3.800 kg
Baking surface area: ¹	7,68 m ² / 9,60 m ²	7,68 m ² / 9,60 m ²	9,60 m ² / 12,00 m ²
Maximum no. of trays (tray size): ¹	16 (800 x 600 mm) 16 (980 x 580 mm)	16 (800 x 600 mm) 16 (980 x 580 mm)	20 (800 x 600 mm) 20 (980 x 580 mm)
Baking load (max.):	192 kg	192 kg	240 kg
Electrical connection: ¹	60 / 68 kW	62 / 70 kW	78 / 88 kW
Condensate drain:	R 3/4" AG	R 3/4" AG	R 3/4" AG

Innovative baking technology for the highest demands

With a baking area of up to 12 m², a modern and individual oven control and powerful steam injection, the electrically operated SOLAR radiant baking oven stands for maximum efficiency and even baking results. Ideal for bakeries with high demands on quality and performance.

Touch control

Increased ease of use thanks to touch display

The intuitive touch control enables effortless and precise setting of the temperature and baking time. Thanks to the large 7-inch touch display, the oven can be operated easily and intuitively, even by untrained personnel.
